PROFILE:

Jack W. Harris is an expert with 44 years professional experience in the areas of construction and surety claims, damages quantification, cost-verification, lost profits analyses, financial management, accounting, internal auditing, valuations, and fraud investigations. Mr. Harris has worked on numerous domestic and international projects. Mr. Harris serves as an independent expert and consultant, and has held various management auditing and controller positions with major accounting, construction, financial services, and diversified firms. Mr. Harris is admitted as a Neutral with the American Arbitration Association for construction matters.

Mr. Harris' industry focus includes but is not limited to construction, mining, energy, real estate and land development, insurance, surety, and related industries. Other industry expertise includes but not limited to high technology, medical, retail, manufacturing, distribution, securities, and professional services. Mr. Harris provides expert and consulting services on behalf of plaintiffs or defendants, and either owners or contractors.

Prior to commencing his expert practice in 1993, Mr. Harris held managerial audit and controller positions with Peter Kiewit Sons', Inc., an international construction, mining and diversified company. His audit and controller positions included Audit Supervisor for the construction division, Audit Committee Member of a \$700 million international joint venture tunneling project in Denmark; Project Controller of a potential \$1.2 billion transportation project; and Corporate Controller and General Manager-Internal Audit of a \$300 million property & casualty insurance subsidiary. Prior to his employment with Peter Kiewit Sons', Inc., Mr. Harris was Internal Audit Manager for the \$2 billion life insurance division of E.F. Hutton & Co. Mr. Harris began his professional career with the San Diego office of Touche Ross & Co. (now Deloitte & Touche).
