Excavation and Embankments

Retaining Walls

Bridge Sub & Superstructure

Road/Parking Lot Lighting

Highway/Roadway design

Parking Lot Design

Bituminous and Concrete Pavement

Drainage

Intersection Design

Traffic Control

Profile/Professional Experience:

Andrae Holiday has over twenty-five years of experience with construction management, field inspections, commercial planning, and engineering design. Before joining Solution Engineering, he worked as a civil/project engineer and manager on large projects for the Illinois Department of Transportation, American Consulting Engineers, Walgreens, inc., Rush Copley Medical Center and others. Dr. Holliday runs his own Civil Engineering business, consulting on projects for smaller businesses and individuals. As an expert witness, he draws on his experience with large and small entities, giving him the ability to see the big picture while not overlooking the details that can be so critical to a case. He is a wonderful communicator with the ability to put people at ease while explaining technical concepts to a non-technical audience.
