

INTRODUCTION

Since 1991 KnightHawk Engineering Inc. has been providing Engineering Legal Services for industrial accidents, failures, performance shortfalls, liability claims, and many other industrial related legal problems. KnightHawk performs design, failure analysis and troubleshooting for static and rotating equipment.

KnightHawk has its own materials lab for complete control of case related evidence while in the testing and analysis phase of the project. This makes chain of custody easy to track and provides assurance of the integrity of the evidence.

KnightHawk's Experts are recognized specialists in their areas of expertise, several with extensive deposition and trial experience.

SERVICES

KnightHawk provides Accident Investigation, Failure Analysis, Accident Reconstruction, Lab Testing and Analysis, Design Analysis, Expert Testimony and Expert Witness services in support of legal cases throughout the US.

SUBJECT MATTER EXPERTISE

KnightHawk employs some of the most highly credentialed engineers. Many members of our staff hold doctorate degrees in their specialty areas, hold patents, and/or are widely published. By maintaining a diverse staff, we are able to offer expertise in a variety of areas including:

ASME Code Compliance	Finite Element Analysis
Computational Fluid Dynamics Analysis	Flow Induced Vibration
Structural Analysis	Structural Design
